## IMAGING... *There's a new way to look at it*

Today's challenging business environment makes it more important than ever that your back office processes are handled efficiently and accurately. If you suspect that there are

inefficiencies or errors in your document processing you should turn to **Filebank Professional Services**. Our expertise applies to all office procedures including data entry, OCR verification, travel and expense report management as well as accounts receivables and payables.

FileBank and its partners combine 70 years of experience in document processing with the highest level of customer service. That is a large part of why we have enjoyed a 99.4% customer retention rate over the years.

Give us a call, and let us show you why businesses both large and small have come to depend on us. For further information email [orders@filebank.ca](mailto:orders@filebank.ca).

## How to Combat the Cost of Fuel

With the constant increase in the cost of fuel, Scan on Demand provides not only a cost effective solution but also an environmentally friendly choice. **Scan on Demand** will lower your monthly delivery costs and reduce the time for the delivery of your requested file.

When an authorized user requires a file, they can use EDCWeb to request the file via "Imaging on Demand" as the delivery type. FileBank staff will scan the contents of the requested file and once completed, our system will automatically send an e-mail to the requestor to let them know the file is ready to be viewed, copied, printed etc...

Once a file has been scanned its image is stored on FileBank's server and is instantly available for future retrievals. Each image can also be given a unique password to further protect your on-line documents.

To find out how this service will be a benefit to your company, please contact us by telephone at (416) 798-1404 or via email at [orders@filebank.ca](mailto:orders@filebank.ca).
